

Encouraging minds, inspiring the future...

At VolkerStevin, we want to inspire the next generation to consider careers in the construction and engineering industries.

We aim to do this through a series of interactive, thought-provoking, and future-focused engagements.

 **VolkerStevin**

"We really can't thank VolkerStevin enough – it was better than we could have imagined! The children were able to get a real insight into the world of construction and I wish you could have heard them talking about their experience on the bus – they are thrilled to be a part of history! We're so grateful that we've been able to work together and it's brilliant that VolkerStevin are able to support our careers work in September too".

Nicola Dryden
Careers and Aspirations Lead
Fulwell Junior School

Testimonials

"Something that has really resonated with me is that it's nice to be important, but it's more important to be nice. This is so true at VolkerStevin because everyone has been so welcoming during my first week. It's been great. I'm really excited to contribute towards the project and get some hands-on experience".

Philip Lloyd
Civil and Structural Engineering
student at Newcastle University
Summer Placement

What's on offer?

PRESENTATIONS AND INTERACTIVE CHALLENGES

We are able to tell students about our project, providing information on challenges and solutions, and encourage creativity, collaboration and problem solving through interactive bridge building challenges. Best for students 13 and under.

CAREERS TALKS

We offer presentations on various careers and roles in construction and engineering. We can also offer CV advice and mock interviews.

INTERNSHIPS AND PLACEMENTS

We can offer a variety of internships and placements to students at college and university on construction and engineering (civil and structural) pathways. These can last between 1 and 10 weeks.
